# POTAIN<sup>®</sup>

## CONNECT<sup>™</sup>

THE NEW POTAIN CONNECT SOLUTION transforms the user experience of crane owners and makes everyday work easier.

Potain CONNECT provides access to secure, accurate data to increase productivity, improve safety and grow your business.

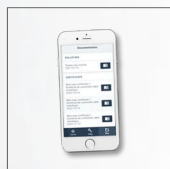

With Potain CONNECT, owners are sure to increase the availability and utilization rate of their cranes, while reducing operating costs and environmental impact.

Potain CONNECT, with its wide range of features, enables in-depth management of machine fleets, streamlining service and maintenance.

### ACCESS:

Easy access to your complete fleet in real time  
Remotely check crane indicators  
Guided troubleshooting assistant

### ASSIST:

Connect to the crane with WIFI to access main control system information  
Intuitive & guided troubleshooting assistance  
Access crane documentation directly in the mobile application

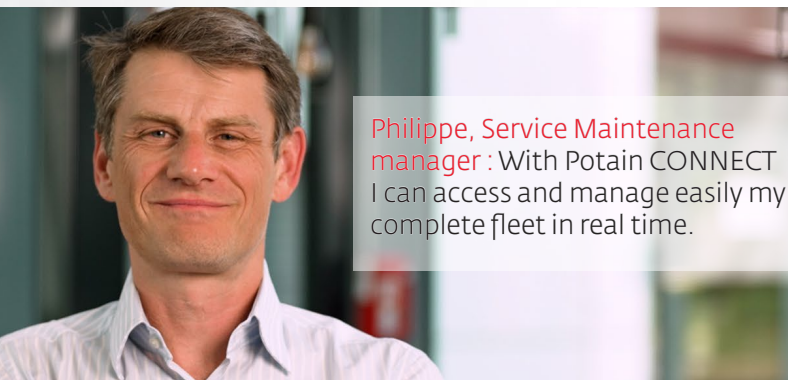

### ANALYTICS:

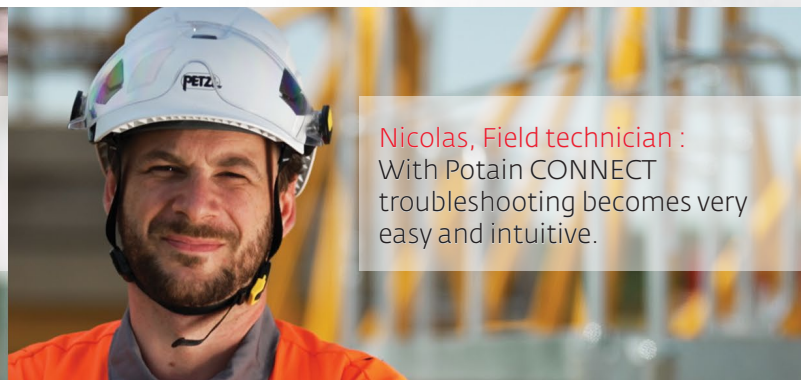

Monitor the progress of your jobsite (loads lifted, shift duration, idle time)  
Import crane data directly into your company information system  
Check if the activity is performed in proper conditions

### ADMIN:

Manage user access : internal and external user accounts  
Fleet management : Rental fleet on the crane sold to third party  
API : Connect fleet data to your information system

**Philippe, Service Maintenance manager :** With Potain CONNECT I can access and manage easily my complete fleet in real time.

**Nicolas, Field technician :** With Potain CONNECT troubleshooting becomes very easy and intuitive.
